

## Environmental Policy

We strive to operate our business in an environmentally and socially responsible manner and work hard to ensure that our business operations have as little impact as possible on the environment and society.

We strive to ensure that all timber and packaging materials used in the manufacture & distribution of our products are FSC or PEFC certified & carry fully audited 'Chain of Custody'.

Sustainability is a core part of who we are. We take great care to make sure our business has as little negative impact as possible on the world around us. That's why we remind everyone we deal with – whether it be employees, suppliers, or customers – that we like to leave things a little better than we found them.

We believe that this forward-thinking attitude will not only help our business grow but make the world a little better for all of us.
